

## Tomcat Class Loaders

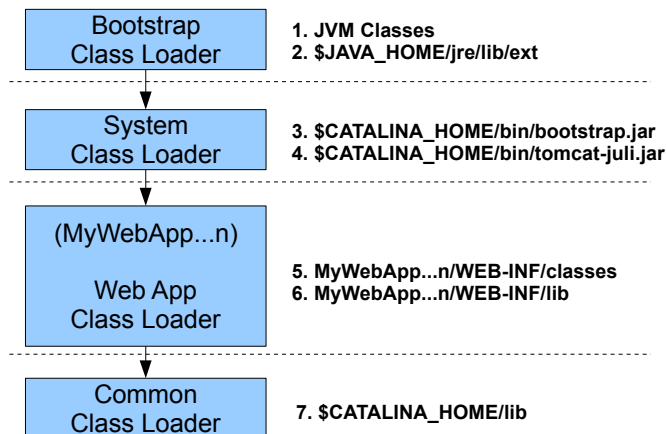

- How Class Loading works from a Web App in Tomcat

### In Order

- How Class Loading works from a Web App in Tomcat

**In Order**

- Full explanation available here - <http://tomcat.apache.org/tomcat-6.0-doc/class-loader-howto.html>
- Application classes should not be placed in `$CATALINA_HOME/lib` – its for libraries that are common to all web-apps
  - Can be overridden by the webapp
  - However, if your desperate then `$JAVA_HOME/jre/lib/ext` cannot be overridden by a webapp
